Hi! I'm Davida Phillips, a Junior from Gary, Indiana. I've been in DLA since my Freshman year and I love it! I interviewed a fellow Junior from Tri-City Christian Academy in North Carolina named Karyn Davis. I asked her questions about our school, what she enjoys and what she'll never forget! Karyn is 17 years old, a new Junior in DLA and she enjoys playing her guitar.

1. What has been your favorite FL DLA moment?
I honestly can't name just one. We have so much fun and there is never a day that goes by without SOMETHING amusing happening. :)
2. How has FLDLA helped you in your walk with Christ?
It's helped me focus on my relationship with Him and go to Him when I have problems, no matter how small.
3. Do you want to come back to FL DLA next year? Why?
Yes, I am planning on it. I like having a more relaxed schedule. :)
4. What's something you learned in FL DLA that you will never forget?
Make sure the microphone is muted BEFORE you go sit in on a class and stare at people. ;)
5. What is something unique at this school that you wouldn't find at any other school you attended?
You have a good schedule and you can turn in your work from almost anywhere. :)

So, we learned that Karyn plans on coming back to DLA next year because of the relaxed schedule. Also, DLA has helped Karyn in her spiritual walk by focusing on Christ and going to Him whenever she needs Him. Sounds like Karyn had a great year!

WORDS FROM...

There are many people that have made and are making, significant contributions to our DLA Program. Last year I introduced you to Mr. Wheaton—a former FLA principal. This year I want to introduce you to someone you probably don't know, but who has been working with us longer than anyone else, and is still actively involved with each of your teachers. Her name is Charity Pitton, and I have asked her to share a few thoughts with you.

- Mr. Anderson

Back in the dark ages when this program first started, I taught all the Bible, English, and social studies courses. (I had taught 12 courses to the first graduating senior class!) I planned and led most of the trips. I wrote most of the newsletters. I mailed the report cards.

I would guess most of you didn't know who I was, though, right? At the moment I primarily work with the teachers, helping them do the best job they can do.

I used to be the person everybody knew. Now, almost nobody knows who I am. What I do, though, still makes a difference in your life with DLA.

And what you do, even if nobody notices it, makes a difference.

God placed you on earth for a purpose. I know sometimes "GOD'S PLAN FOR YOUR LIFE!!" is this enormous thing, like He's got some road map up there you're supposed to follow, if you could just find it and decode it.

*But I would say His purpose isn't necessarily that giant road map saying
Where you're supposed to go to college,
What career you're supposed to have, or
Whom you're supposed to marry. (Whom, did you notice?) Toldja I was an English teacher.*

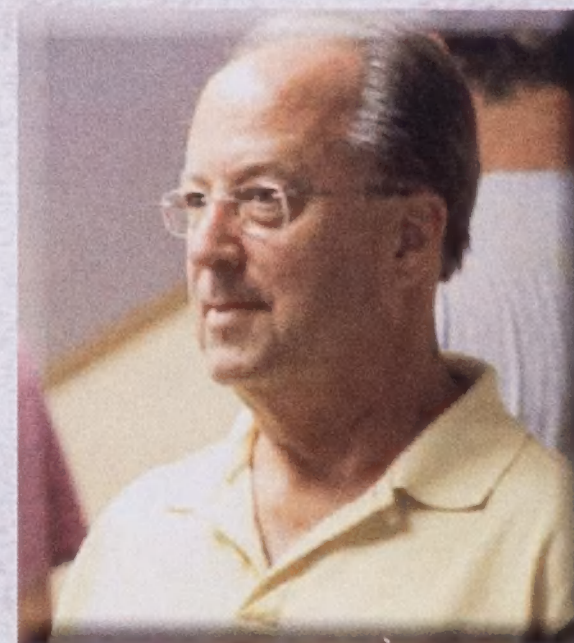

His purpose for your life may have more to do with your choices in the next five minutes than your choices in the next five years.

*Will you notice someone who is depressed and encourage them?
Will you answer annoying questions with a smile?
Will you show patience when the computer freezes up for the millionth time?*

I would propose that if you can work with God on the choices you make for the next five minutes, then your choices for the next five years will take care of themselves.

May we all have wisdom and strength for the next five minutes! And may God bless your next five years.

SIMPLY STAFF

Hello DLA-ers, I can call you that, right? Well, I take that as a yes. Oh, and I suppose I should introduce myself, I'm Amber Bako. I'm a junior (Class of 2011, baby) and I go to the Gainesville Site, Go Gators! Anyway, I had the pleasure of interviewing sixteen year old Daniel McFall, who's a sophomore at Hoover Christian School. As we got to talking, he answered some questions about his site.

Amber: What is the main focus of what sites try to encourage to their students? Why?

Daniel: The main focus of trying to encourage the students is always do their absolute best and complete their work. I think this because they want to always get the best out of the students and teach them time management to ready themselves for the future

Amber: Being a student what do you think all the sites bring to this program as a whole? Why?

Daniel: I believe they show the uniqueness of the program and the diversity as far as location. I believe they show how functional this program is and the quality of DLA's education as well in a good represented manner.

Amber: How has/have your facilitator(s) helped you this year in AE21/DLA?

Daniel: My facilitator has helped me really prioritize things, realize time management skills, organization, and the importance of each.

Amber: What do you and your site members do outside of the classroom for fun?

Daniel: Normally it ranges from P.E with other kids at our site or just going outside for a break. Stuff like that.

Amber: What is unique about your site?

Daniel: Well, I guess we are a little liberal about how we run things in the classroom. We're free spirits you could say but, I also like to think that we work REALLY hard. I know my friends do (me on the other hand depends). But, our site is really fun and I'd like to think that has some uniqueness to it.

Sounds like Hoover is an awesome site. But remember that your site is awesome, too. Why? Because you're there, which makes it unique. Hope you had a great year at your UNIQUE site!

The History of Henry Esmond

Camp Kulaqua is where the majority of our fall trip took place. One of the people who happened to go on this year's trip was Rachel Brouhard, a senior from Tri-City who has been in FL DLA for two years. Here is what she had to say when asked about the trip:

"I wanted to go on the trip to meet the new students and new friends I had made over 1M. I just enjoy getting out and doing stuff, too. I enjoyed staying at Camp Kulaqua. The cabins were great mostly because of the AC and the one day we got to get into the pool was amazing. I loved being at the camp, but I hated the humidity! One of my favorite things about fall trip was just hanging out and doing the activities with every one else, but at the same time I also enjoyed just going to the cabin and chilling in the AC!

The service projects were fun. They surprised about ten of us so-called "cool" kids with clearing brush out of the cold river. This did not make me happy! At first I was freaked out about getting into the water and touching all the muddy trees etc. but after a while I got in and actually had a pretty good time with everyone. I think that making a group of us do something we didn't want to do kind of brought us together more, but next time I would rather do something more dry. I went horseback riding Saturday which was fun, but really hot. If I had the choice to do something again I would rather go tubing down the river. It's cooler and more exciting! The only down side to the trip was that everyone kept catching Swine Flu and the trip got cut short as a result.

The main lesson that I learned is that when you're in FL make sure you always know where to locate the water and AC."

Hello, I'm Chelsea Joffrion aka Kitty, a senior (OH 10!) from Montgomery, Alabama. I've been in DLA for 2 and half years and I absolutely adore this program! I interviewed a junior and also a great friend of mine from Hoover who goes by the name Nikisha Ryan. I asked her a few questions regarding the Spring Trip that just took place, and what she thought of the different things that took place on it. Nikisha is 17 years old, this is her second year as a full time DLA student and she really enjoys it. Nikisha enjoys being with friends, playing guitar, and pudding!

1. Having spring trip is an opportunity that most distant learning programs don't offer. What do you think this means for the people who attend our program? Why?

I think that it means a lot because the people who attended get to socialize instead of how some homeschoolers don't normally get to see other people and they become introverted. It also means they get to have real high school experiences, as well.

2. What's one experience you will never forget about Spring Trip?

The one experience that I will never forget about this spring trip is riding in the car with Mr. D. That's all I need to say.

3. What did you think about Camp Alamisco?

Coming from one who has been there many times, it has always been an interesting camp to me.

4. What was your favorite activity on the trip?

My favorite activity that we did on the trip was going to the many different civil rights places in downtown Montgomery. Especially seeing that lady at the Civil Rights Museum! Man, she sure could nail a person.

5. What was your favorite thing about the banquet?

My favorite thing wasn't just one thing but two different things. Those two things were the teacher vs. students challenge and the PORK INCIDENT! Dun, dun, dun.

From this interview, we gathered that Nikisha really enjoys these trips because it gives us an opportunity to grow which many other homeschoolers or distant learning programs don't offer. Also it gives us more of a high school experience. Being a witness, I know Nikisha had a great time but this just confirms it.

Dearest Jennifer,

Where has the time gone! Just yesterday you were little enough for me to carry when you got tired, or help you reach something up high. Playing hide and go seek in the house, scuba diving in the pool, watching you learn so many new things, has made time pass so quickly. I was leading the way in our newest adventure and you kept up without hesitation. You have grown up to be a beautiful young lady that loves the Lord. I am so proud of you for all your achievements. Now it's time for me to walk beside you and let you take the lead. As your relationship with God grows stronger learn to trust and depend on Him more, He will never let you down. I will be with you in whatever you choose to do in life, making suggestions, guiding, supporting, but letting you take the lead. God has blessed you with many talents, and I am certain you can do anything you put your mind to. I will always love you and be here for you as long as God gives me breath.

Love you always,
Daddy

Jennifer,

Words cannot describe the love I have for you and how proud I am of you. I am so glad God chose me to be your mom and it has been such a blessing having you as a daughter. It seems only yesterday your dad and I were taking you home from the hospital and now here you are all grown up. I have enjoyed watching you grow up, from taking your first steps, saying your first words, your first day of school, learning to drive a stick shift car and now ready to graduate from high school. Time seems to have flown by and here you are a beautiful young woman. I am so proud of you for the many accomplishments you have made in your life, but the one I am most proud of is your love for God and your decision to follow Him. Always remember to put Him first in your life; He will always be there for you. I love you sweetie and congratulations!

Love,
Mama

YAY! You finally did it!

Great job this year on school and hope you do great next year!

Always remember that I'm here for you if you need anything and to always do what you know is right. I'm going to miss you bunches next year.

Love ya!!
Your bestest sister ever!
Stephanie

Dear Nicole:

You have made us so proud. You have accomplished a lot in these four years and proved that with hard work and dedication you can do anything in life with God's help. You are truly number one and second to none in our book. Go out and do what God has already planned for you. May God richly bless you and give you more than you can possibly dream of.

Love,

Mom and Dad
